MEET
THE PRODUCERS

CHAMPAGNE LAURENT-PERRIER

The House of Laurent-Perrier was founded in 1812. Fired by a passion for champagne and a respect for traditional values, Bernard de Nonancourt inspired Laurent-Perrier in 1948 with his independent spirit and creative audacity. He created the signature house style of freshness, finesse and elegance and developed a unique range of champagnes which are today exported to more than 160 countries worldwide.

His legacy lives on today through
his daughters.

HODMEDOD'S

Hodmedod's is a small, but expanding, independent business that was founded in 2012. The company works with British farmers to provide pulses and grains, from fair and sustainable UK produced sources, utilising organic elements whenever possible.

BERMONDSEY STREET BEES

Dale Gibson, one of Britain's best-known professional beekeepers, founded the sustainable beekeeping practice, Bermondsey Street Bees in 2007.

Dale advocates ecology-based approaches to keeping urban and country bees, and is an artisan producer who adheres to traditional production techniques. Their multi-award-winning raw honeys are sustainably produced, and made by bees living on wild, rewilded, and regenerative land.

THE BOOK & BUCKET CHEESE COMPANY

Mutli-World Cheese Award Winners, The Book and Bucket Cheese Company was founded by Peter Morgan. When Peter began making cheese, he sought counsel from a group of people that possessed over 120 years of industry experience between them. Their best advice for a starting point, was to buy and read as many books as possible. After that, they agreed it was just ‘bucket science’, and advised Peter to keep playing until he made something he liked – and that he thought someone would buy. Peter is also the creator of our very own Stowaway, a Dorset ewe’s milk cheese.

UNION COFFEE

Founded in 2001 by Jeremy Torz and Steven Macatonia, Union Coffee develops small batches of 100% arabica coffee, with beans sourced from smallholder farmers in Asia, Africa, and Latin America. Indulgent notes of dark chocolate and sweet treacle, balanced by red apple-like acidity, characterise their signature Campañero blend: unmistakable, wherever it is drunk around the world.

CHALKSTREAM

Founder and entrepreneur, Hugo Hardman, began a trout revival in 2014 with the formation of ChalkStream. He recognised the uniqueness of fine English trout raised in farms fed by the world-famous Test and Itchen Rivers in Hampshire, and how underappreciated they were by the market. ChalkStream trout are slow grown for two years, in farms built on fast-flowing pure chalk stream water, resulting in fish that are fit and lean with a unique, clean taste.

CORNEY & BARROW WINE MERCHANTS

At more than 240 years old, Corney & Barrow is one of the UK's longest-established independent wine merchants. Royal Warrant holders since the reign of King George V, the company prides itself on hand-selected wines, with an emphasis on quality benchmark styles. Many wines are the product of exclusive relationships with suppliers, while the brand's Own Label Wines are blended by top-producers. It's this commitment to its craft that sets Corney & Barrow apart; a mark of excellence that shines through in every glass.

THE REAL CURE

Back in 2014, The Real Cure was founded by James Smart. He was the head charcutier and possessed a burning passion for sustainable British meat. Starting with just a single refrigerator in his father's old workshop on the family farm, they've grown into today's multi-award-winning charcuterie business.

SOMERSET CHARCUTERIE

Somerset Charcuterie was started back in 2015 by Andy and James over a pint of cider at a local lawn-mower race (they are in Somerset).

The company embraces traditional Italian and Spanish methods, yet combines them with some of the fantastic flavours and rich food culture of the West Country. Mixing the old with the new, and continental with British, to deliver bold, robust flavours that will excite and intrigue.

Their focus is to introduce these innovative new flavours and ideas to the world of British Charcuterie. They use pigs that are outdoor and locally reared, along with other local ingredients that come from Somerset producers.

LYBURN FARMHOUSE CHEESEMAKERS

Nestled on the northern edge of the New Forest, straddling the small river Blackwater, Lyburn Farm has been cultivated by the Smales family for the last 50 years. With Mike Smales at the helm, the farm which is part of the Hamptworth Estate, makes cheese from their own pasteurised cow's milk, which comes from home-bred cows that can trace their pedigrees back some 60 years.
