

Health advisory information for guests –

June 2021

Our assurance to you

Cunard is committed to delivering the highest standards of health and well-being for our guests, crew and the wider communities we visit.

We have introduced enhanced and approved well-being measures across every aspect of your vacation experience with us. The framework of enhanced protocols has been developed with guidance from our global medical and public health experts and scientists and in close coordination with UK and US government agencies, and are designed to keep you and our crew healthy and well throughout your vacation. These protocols include enhanced sanitation measures, appropriate social distancing and the mandatory wearing of face masks in certain areas of the ship. All guests will need to comply with this face mask policy in order to travel.

Crew will also undergo a strict testing and quarantine regime as well as regular testing during their time on board. Our protocols are subject to change, as we will continue to work with our experts and with government bodies to ensure all of our practices evolve in line with latest advice, with our primary focus always being to protect the health and well-being of our crew and guests and the communities we visit.

Vaccination and testing Policy

Following ongoing guest feedback, we've reviewed our vaccination policy. For all voyages departing from October 13 - December 31, 2021, all guests 18 years old and over will be required to have completed their vaccination course a minimum of 14 days prior to sailing. All guests 17 years old and below will need to have completed their vaccination course a minimum 14 days prior to sailing or will require a negative PCR test within 72 hours prior to travel.

All guests will also require a negative Covid-19 test at the terminal. The PCR and COVID-19 test at the terminal will be provided on a complimentary basis. This vaccination and testing policy will be reviewed on a regular basis as the global situation continues to evolve.

The vaccination policy for the UK Summer at Sea voyages (departures from July 19 up to and including October 1, 2021) remains that all guests travelling, of all ages, must have completed their vaccination course a minimum of seven days prior to sailing (or 14 days prior to sailing if an approved single dose vaccine.) Pre embarkation Covid-19 tests will be required at the terminal and will be complimentary in the price of your vacation. There is no age restriction on this series of UK Summer at Sea voyages but all guests of all ages must meet the requirements of the Covid-19 vaccination policy.

At the time of travel, some ports of call may stipulate specific vaccine or testing policies for guests going ashore that differ from this policy and we will let guests know if this is the case.

All other Cunard voyages on sale do not currently require guests to be vaccinated.

All guests will be required to show proof of vaccination status at the terminal prior to boarding. We will confirm details closer to the time of sailing.

We will update Sailing with Confidence and Preparing to Sail web pages as necessary and update all guests prior to their vacation departure date. Please do ensure that your preferences and contact details are up to date in the My Cunard section of our website

Health advisory information for guests –

June 2021

Pre-existing medical requirements- what you need to know

While any travel should be carefully considered, it is understood that those with certain pre-existing medical requirements or of a certain age may experience more severe symptoms should they contract Covid-19 (coronavirus). We strongly recommend that you review the US Government guidance prior to making travel arrangements; this can be found at:
<https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-with-medical-conditions.html>

If you have any existing medical requirements, we recommend you discuss your travel plans with your doctor. The information below may help guide the discussion and we suggest you have this with you at your appointment. We strongly advise you follow their expert advice regarding your fitness to travel, particularly during this uncertain time. You should also be aware that if you don't follow your doctor's advice, your medical insurance may be deemed invalid.

We are following all latest guidance to evolve our enhanced protocols to protect the health and well-being of guests, crew and the communities we visit. Unfortunately, when we return to sailing we will not be able to accept guests who have the following medical requirements:

- ◆ Supplementary oxygen (including via oxygen concentrator)
- ◆ Mechanical ventilatory support (except for overnight CPAP for sleep apnoea)
- ◆ Dialysis
- ◆ Within the 14 days prior to the cruise:
 - Have been unwell with confirmed or suspected Covid-19
 - Have been in close contact with someone with confirmed or suspected Covid-19
 - Have been advised to self-isolate under a government track and trace system

Medical facilities on board

The ship provides a private medical service and staff include doctors and nurses. Our medical facility has basic medications and equipment. While we are able to offer an immediate medical response, it is important to understand that this isn't the same as would be available on land and there is no access to surgical or complex intensive care facilities, advanced imaging or medical specialists.

If an acute medical or surgical condition occurs, medical evacuations would be made where possible. All medical services are charged for and in the case of a medical evacuation, those costs can be substantial. It is for this and other reasons that comprehensive travel insurance is strongly recommended– please see the section below.

Health advisory information for guests –

June 2021

Medication

The ship's medical facility stocks basic supplies of emergency medications but a regular pharmacy service is not available. Guests should bring sufficient supplies of any regular medications with them, to last at least 14 days beyond their vacation.

Travel and medical evacuation insurance

We strongly recommend that you take out comprehensive vacation insurance when you sail with us, including coverage for Covid-19. While we hope you never have to use it, the policy will ensure you're able to relax and enjoy your vacation with the peace of mind that you're protected should you need it. When traveling with us, your insurance should include medical cover and cover for emergency evacuations and medical expenses related to Covid-19. You should also ensure your policy includes cover for repatriation, cancellation and curtailment and full cover for any and all pre-existing medical conditions worldwide, or as a minimum, in the countries you are due to visit.
